

PRODUCT FAMILY DATASHEET

Rings

Certified solitaires, coloured stone halos, full eternity bands and mechanical statement rings, all sized and built to order in 18K.

What This Family Is For

Eight of the sixteen published pieces are rings, and they cover the two different problems a ring workshop has to solve. A certified solitaire is bought on a report, so the work is entirely in the mount: head height, shank profile, whether the stone sits where a knuckle and a cuff will let it live. A full eternity band or a rainbow sapphire row is the opposite: the stones are the work, and they have to match each other around a circle that meets itself.

Products In This Family

Product	Group	Summary
5.7ct Radiant Cut Diamond Eternity Band	Eternity And Wedding Bands	A full eternity band carrying approximately 5.7 cttw of elongated radiant cut white diamonds in a shared prong setting, hand made in solid 18K gold.
Handmade Geometric 3D Spinner Diamond Band Ring	Statement And Mechanical Rings	A wide ornate 3D band with a working pinion: the outer edge turns freely against the core, with diamond accents across the geometric face.
Blue Sapphire And Diamond Halo Engagement Ring	Coloured Stone Engagement Rings	An emerald-cut Ceylon blue sapphire inside a halo of baguette and round diamonds, set in 18K white gold, with the sapphire GIA certified.
South Sea Golden Pearl And Diamond Ring	Pearl Jewellery	A genuine natural South Sea golden round pearl on an 18K fan setting, set with natural VS1-G quality diamonds, designed, drilled and set in-house.
GIA 2.01ct Round Brilliant Engagement Ring	Certified Solitaire Engagement Rings	A vintage-styled solitaire carrying a GIA certified 2.01 carat round brilliant cut natural diamond, crafted in 750 solid 18K gold with a low profile shank.
Eiffel Tower 1ct Diamond Engagement Ring	Sculptural Engagement Rings	A sculptural engagement ring whose shoulders form the Eiffel Tower silhouette, carrying a 1 ct 6.5 mm VVS F colour natural diamond on an 18K white gold band.
Rainbow Sapphire And Diamond Eternity Ring	Eternity And Wedding Bands	A wide 18K rose gold band channel-set with 30 square rainbow colour sapphires at approximately 1.85 ct, bordered by 66 round diamonds at approximately 0.55 ct.
GIA 1.5 Carat Round Cut Diamond Engagement Ring	Certified Solitaire Engagement Rings	A GIA certified 1.50 ct round cut diamond at E colour and VS2 clarity, set in 18K white gold, with production in 10 days or less.

Total diamond weight	Approx. 5.7 cttw
Diamond cut	Radiant, elongated
Diamond colour	H-I
Diamond clarity	VS1-VS2
Cut grade	3EX

Property	Value
Setting	Shared prong
Ring size	Made to order
Engraving	Characters, dates and names, on request
Nickel	Nickel safe
Price	Quoted per enquiry; the source publishes no price

Figures are reproduced from the manufacturer's published specification and may be revised. Rows reading 'not published' are figures the source specification does not publish; they are confirmed in writing rather than estimated. Confirm the current revision with your quotation.

Why Buyers Choose This Range

- Stones matched in colour, clarity and cut before any metal is cut
- GIA certificates available, with the report checked against the girdle inscription
- 18K and 14K in white, yellow and rose, and platinum on request
- Sizes made to order, with complimentary resizing offered on listed solitaires
- Production stated at 10 days or less on certified solitaires, subject to stone supply

Problems It Solves

- Eternity bands where the stones visibly change tint from one side to the other
- High settings that lever the centre stone loose over a couple of years
- Certified stones dropped into thin, under-weight mounts
- Rings offered in fixed sizes, so the customer is asked to change fingers
- Coloured centre stones sold with no origin, certificate or treatment statement

Who It Is For

- Bridal and engagement retailers buying certified centre stones
- Independent designers who need shaped or mechanical work executed
- Wholesalers carrying eternity and anniversary bands
- Private clients commissioning through a local jeweller

Application Scenarios

- A certified two carat solitaire built to a low profile for daily wear
- A full eternity band matched to an existing engagement ring
- A ninety-six stone rainbow sapphire band with the colour run approved first
- A sculptural ring drawn from a landmark or a personal reference

Materials

- Solid 18K gold
- Natural white diamonds

Manufacturing Process

1. Stone selection and matching
2. CAD and wax
3. Casting
4. Shared prong setting
5. Polishing
6. Final inspection

Customisation Options

- Carat weight and stone size adjusted to budget

- Natural diamonds, lab grown diamonds or coloured gemstones
- 18K white, yellow or rose gold
- Inside engraving with names, dates or characters

Certification Standards

Production follows GIA certificate available on certified stones, Type A jade certification available, Nickel-safe alloys. Certificates are sent per product on request.

Questions Buyers Ask

Can you work from a GIA report I already have?

Yes. Send the report number and the measurements on it. The head is cut to the measured diameter on the report rather than to a nominal carat weight.

Do you make rings in platinum?

The source lists platinum alongside 18K and 14K white, yellow and rose gold on its certified solitaires. Platinum changes weight and price, not the design.

Can a full eternity band be resized later?

No. There is no plain section to cut and rejoin, which is why size is confirmed before production rather than after.

What is the smallest order you will take?

The source publishes no minimum order quantity. Single commissioned pieces and private label runs are both quoted.

Are lab grown diamonds available?

Yes. The source states that pieces can be made with natural gemstones, lab grown diamonds or natural diamonds.
