

LED Flashlights

Two hand-held references: a waterproof high-output torch and a 5W 365nm USB rechargeable UV flashlight used for inspection, currency and stain checking rather than general lighting.

2 references. Every figure below is reproduced from the manufacturer's own documentation for that reference; where a table is absent, no specification was published.

1800lm waterproof led bike light

LED Flashlights

No specification table was published for this reference. Ask and the current sheet will be emailed.

Mini 365nm UV Flashlight

UV Flashlights

No specification table was published for this reference. Ask and the current sheet will be emailed.
