

Ordering And Packing Information

Everything below is either published by the factory or is a working practice you can hold us to. Where a figure is not published it says so rather than giving you a number to plan against.

Ordering

Minimum order	300 pcs for a production run. How it splits across styles, colours and sizes is agreed per order.
Production basis	OEM. Your own labels, packing and size chart apply from the first run.
Sampling	One sample per style before bulk. Bulk is cut only after you approve it, and the approved sample stays the reference for repeats.
Artwork	Send the highest resolution original with the repeat marked. It is checked for scale and resolution before sampling.
Quoting	Send item numbers or artwork, quantity, sizes and destination market. Those four things are what a quote is built from.

Product

Fabric	Polyester and spandex across the legging range.
Fabric weight	Not published. Confirmed at the sample stage before you approve bulk.
Sizing	Some styles run S M L, others are free size with high stretch. Patterns can be regraded to your own chart, including plus sizes.
Colour	As shown, or made to your specification against a reference you supply.
Certifications	None is published for this range. Tell us what your market requires and it will be answered directly.

Packing And Shipment

Bagging	One garment per OPP bag as standard. Sets are bagged as a set.
Retail packing	Retail polybags, hangtags and barcodes are applied when you supply the artwork and number range.
Labelling	Care, size and composition labelling follows your specification and your destination market.
Cartons	Size and colour ratios packed to your packing list. Carton marking to your specification.
Inspection	You or your agent can book third-party inspection before shipment.
