- Real-time O₂ and pressure monitoring

Overview

The Oxygen Times OTP500 is a professional hard-shell hyperbaric oxygen chamber designed specifically for companion animals. Built for veterinary professionals, pet wellness providers, animal recovery centers, and premium home pet care, the OTP500 delivers stable hyperbaric oxygen sessions in a safe, comfortable, and intelligently controlled environment. With adjustable operating pressures from 1.0 to 1.5 ATA, integrated environmental monitoring, oxygen enrichment, and multiple independent safety systems, the OTP500 is engineered for dependable daily operation while prioritizing both animal comfort and operator convenience.

What ships in the box

Every OTP500 system includes everything required for immediate installation and operation. Fully assembled veterinary chamber with integrated monitoring and safety systems. 7-inch touchscreen interface with real-time monitoring and automatic pressure management. High-performance oxygen concentrator with professional oxygen delivery accessories. Integrated filtration and sterilization components for continuous clean-air circulation. All hoses, fittings, valves, accessories, and user documentation required for installation. Oxygen Times provides remote installation guidance, commissioning assistance, operator training, and long-term technical support.

Quality control before shipment

- Pressure testing before dispatch
- Airtightness inspection
