Competitive Position

Our most competitive advantage in this business is the lowest cost given the same quality, which comes from a diligent, practical and extremely hard working team in both management and production.

Mission And Vision

Environment Friendly Production

To help create a greener tomorrow we work to reduce our carbon footprint and conserve the planet's resources. Through sustainable business practice and technical innovation we are committed to green manufacturing in every part of our operation.

Customer Relationship

No relationship lasts without equal growth. That belief drives our continuous improvement. We keep introducing new management tools, seek vertical integration and strategic partnership, and our R&A; department continues to improve production technique and explore new materials for new applications.

Our Workers And Suppliers

We care and we share. We are grateful to be able to support the communities where we grew and prospered, and our charitable and voluntary work aims to help people build a self sustainable future.

Service Commitments

Quality Assurance

IQC inspects incoming materials, all relevant tests run before mass production, IPQC checks every making process and OQC and FQC check every product before delivery.

Responsive Customer Services

One to one responsive customer service. One person follows your project through design, sampling, production, delivery and after sales.

Timely Delivery

A well developed supply chain, fast design and sample making, efficient mass production and fast sea, land and air shipment partners.

Team Work Spirits

Our customers are our partners. A whole team works on every project to keep cost low, quality high, delivery on time and communication clear.
