

GARDEN WATERING PRODUCTS

PVC Garden Hose Specification Sheet

Hose is the anchor of a watering programme. It sets the size everything else has to match and it is the product a customer walks in for. We supply a 1/2 inch 15 metre hose as a plain coil and as a complete set, so a retailer can run both the replacement purchase and the first time buy off one supplier and one carton spec.

Why This Family Is Built This Way

- 1/2 inch sizing that matches the connectors menders and reel capacities across this catalogue
- Offered both as a plain hose and as a complete set
- Plastic shrink packing at five pieces per carton for clean pallet presentation
- Published carton size CBM and net and gross weight for container planning

Problems It Solves

- Hose bought from one supplier and fittings from another that do not match on size
- First time buyers who need a working set rather than a bare coil
- Shrink wrapped coils that look untidy on a pallet display
- Replacement customers who only want the hose and not the hardware

The 2 Models

Model	Description	Packing	Pcs/Ctn	Carton Size cm	CBM	N.W. kg	G.W. kg
YM9115s	1/2" 15 m Garden Hose Set	Plastic shrink	5	35 x 35 x 33	0.041	10.8	11.8
YM9115	1/2" 15 m Garden Hose	Plastic shrink	5	35 x 35 x 33	0.041	10.3	11.3

Questions Buyers Ask

What hose sizes do you work with?

The catalogue hose is 1/2 inch. Our fittings family covers 1/2 inch, 5/8 inch, 3/4 inch and 1 inch, so a programme built on this hose has matching hardware across the range.

What is in the hose set?

The set version is supplied as a complete watering kit rather than a bare coil. Ask us for the current component list before you quote it, as set contents are confirmed per order.

How is the hose packed?

In plastic shrink, five pieces per carton, in a 35 x 35 x 33 cm carton at 0.041 CBM.

Can you make other lengths?

Length changes are a normal customisation for a hose programme. Tell us the length and the coil presentation you need and we will quote it against your volume.

Do you supply hose already fitted with connectors?

That is what the set version is for. We also supply the connectors separately if you prefer to assemble locally.
