

Request for Quotation Checklist

Please specify the following when you send a request for quote or order to Yongxin Precision Material (Wuxi) Co., Ltd..
Completing all seven points allows the enquiry to be quoted in one pass.

1 Standard	ASTM, JIS, DIN, GB or another standard the material and certificate are issued against
2 Grade	Use the Yongxin grade comparison tables for stainless steel and cold rolled steel to match your designation
3 Surface finish	Roughness and grain specification, or send a control sample chip. A sample will be made and sent for approval
4 Mechanical properties	Yield strength, tensile strength, elongation and hardness. Use the hardness conversion table where scales differ
5 Dimensions and quantity	Thickness, width, length, weight or quantity needed. State tolerance where required, otherwise Yongxin standard tolerance applies
6 Packing	Coil weight, inner diameter, wrapping, pallet and marking requirements
7 Delivery and terms	Required delivery date, incoterm, destination port and any other requirement

Blank RFQ Form

Company / Contact	
Standard	
Grade	
Thickness (mm) and tolerance	
Width (mm) and tolerance	
Temper or mechanical properties	
Surface finish / roughness	
Quantity (kg) / annual volume	
Packing, coil weight, inner diameter	
Delivery date and destination port	
Application and forming operation	

MOQ is 1000 kg per specification. For enquiries below MOQ we can still proceed, but machine set up may lead to a higher price and a longer lead time unless stock is available. Production time is 15 days or more depending on quantity and specification.

Send the completed form to jack@yongxinint.com or call +86-510-83333660.
